

Welcome

Whether you are a new or an existing patient, we would like to thank you for choosing our practice. At Hunsbury Dental Care, we provide high-quality treatment in a friendly, family-oriented environment. As a family run practice, we are dedicated to serving our patients in the community. We are committed to continuing dental education and keeping abreast of the changes in modern dentistry.

We encourage preventive techniques – helping you to understand how to maintain the health of your mouth and keep it free of tooth decay and gum disease. We are therefore delighted to offer our Dental Care Plans – our own private membership scheme, which enables us to provide you with the treatment and support necessary to control dental disease and restore your mouth to full fitness.

Our modern health-promoting approach with continuing care means:

- Fewer fillings
- Less dental decay
- Less likelihood of toothache
- More attractive teeth
- More choice
- Reduced costs
- Helping to keep your own teeth for life.

Treatments and Services Available

As well as routine dental care, we are able to offer a comprehensive range of cosmetic and more advanced therapeutic treatments.

Please enquire about:

- Tooth whitening
- Non-metallic crowns and fillings.

Your Child's Dental Care

Children are born free of dental disease, yet by adulthood a significant proportion of the population has active gum disease and most people have experienced some tooth decay or even tooth loss. Our aim is to provide your child with the best dental care available to secure their dental health. We ask patients to bring their children with them from birth so that we can see them regularly to help them grow up free from dental disease.

We see children free of charge under the NHS. For more information on the best option for your child's dental care, please ask a member of our team.

Safety

We take all necessary precautions to safeguard you and our staff. We follow recommended guidelines with regard to sterilisation of instruments and the use of disposable items, e.g. gloves and needles. We are happy to answer any questions you may have.

Worldwide Dental Trauma and Emergency Callout Insurance

Emergency Callout – cover can be provided by any dentist worldwide who agrees to treat you. You simply pay the emergency callout charge to the dentist concerned and collect a receipted invoice. This will then be processed through the practice for reimbursement from the insurers and you will be refunded the callout fee, minus the excess, up to the policy limits. This cover is to provide immediate pain relief only; no additional or restorative treatment fees can be claimed. You should return to the practice in normal hours for any further treatment required.

Dental Trauma – cover is provided should you be unfortunate enough to suffer a dental trauma, for example, as a result of a road traffic accident or an accident at home or at work. The insurers will settle the claim up to the policy limits and you will need to pay any relevant excess.

Hospitalisation – benefit is provided should you have to stay in hospital as a result of dental trauma.

Permanent Facial Disfigurement – benefit is provided should you be scarred on the neck or face as a result of the accident.

Oral Cancer – a payment will be paid upon diagnosis of oral cancer.

Redundancy Protection – plan premiums paid for up to one year (not included in the Registration and Insurance Scheme).

A leaflet giving details of the insurance cover, limits, excesses and exclusions is available at the practice.
